The New Revolution of Table Tops

Whether in Interior or Exterior application, HPL Decors Solid core phenolic resin compact HPL Table Tops always satisfy physical quality requirements. Our Table Tops' thickness usually are from 6mm to 25mm. Our Table Tops are made from solid core phenolic resin compact board, which are manufactured according to European Standard, and with CNC Machine processing and cutting into different sizes and shapes according to customers' requirements.

➔ BEST QUALITY

Comparing with traditional tabletop materials such as MDF with powder coating, wooden top, and MFC with PVC edging, HPL Decors HPL Table Tops are truly high density. Neither edge banding is required, nor is massive thickness to build. Because of solid core and melamine surface, specialties that suspending them in the cloud. Especially the Outdoor grade HPL table tops are formed for exposures to outdoor weather condition for a long time period.

➔ LOOK BEAUTIFUL

HPL Decors HPL Table Tops are naturally simple because of fabricating and finishing. As normal use in the leisure furniture, 8mm, 10mm, or 12mm are strong enough as supporting tops. The slim body looks extremely concise and durable. HPL Decors HPL Table Tops feature a variety of colors, patterns, and finishes that meet diversity and beauty.
